

Arace Supply Switch and Outlet Boxes

New Work Adjustable Switch and Outlet Boxes

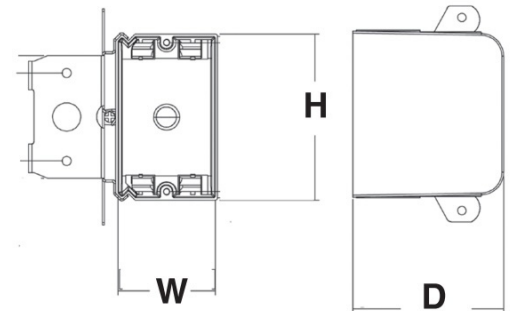

Our Adjustable Work, switch, and outlet boxes are perfect for both new construction and retrofit projects in residential and light commercial settings. Featuring a vertical mount adjustable bracket, these boxes allow for precise depth adjustments to accommodate various drywall thicknesses and wall finishes. This makes them an ideal solution when wall coverings have already been installed. Compatible with all standard devices and switches, they provide maximum flexibility and ease of use.

- ETL Listed
- ETL 2 Hour Fire Rated for in-wall use
- Conforms to UL 514-C
- Adjustable depth settings
- Nails and mounting hardware
- Long lasting and cost saving
